

“My interest is in exploring the intersection of line and form, movement and light. This collection is a journey into the unknown, the point at which we all stand. Beyond the dark lies something beautiful and unexpected.”

## Lisa Ariotti

Painter and installation artist Lisa Ariotti has cultivated a practice that bridges the gap between fine art, architecture and design. Starting with paper and moving to metal, she continues to transform the act of painting into an act of building with subtle translucent layers and amorphic shapes that open into a black, matte void.

MONOLITH TRIO is a Limited Edition modern abstract triptych.

On View Now at Nisi B Home.

Each series begins with a Limited Edition piece followed by a collection of prints for custom order.
